11 aneframe and next steps

It was agreed that a March timeframe for implementation in NL would be very difficult to achieve, the target has been moved to Ma3A4.,, 2009. There remains an opportunity for an earlier start in NS, similar to what occurred foil the implementation of the new suit in 2007. Learnings would be shared with NL prior to the May 4 2009 implementation date. CAPP EPG and Safety Committee to consider this and NS to be prepared for such an instance.
